

USDA'S Rural Utilities Service provides programs to finance rural America's telecommunications infrastructure. The Broadband Loan program provides loans to fund the costs of constructing, improving and acquiring facilities to provide broadband service to eligible rural communities. The Distance Learning and Telemedicine program brings electronic educational resources to rural schools and improves health care delivery in rural America. The Community Connect Grant program provides financial assistance to eligible applicants that will provide broadband in unserved areas to provide public safety services and foster economic growth.
